# Addition Facts Maze

**Family Note** For homework, your child will review addition facts like the ones we have been working on in class. To help identify the path from the child to the ice-cream cone, have your child circle the sums of 9, 10, and 11.

*Please return this Home Link to school tomorrow.*

Help the child find the ice-cream cone. Answer all the problems. Then draw the child's path by connecting facts with sums of 9, 10, or 11. You can move up, down, left, or right as you move between boxes.

# NUMBER MAZE: TARGET 50

Start the maze with zero.

You have to finish the maze with a total of 50.

You must follow one of the arrows each time.

There are two possible routes. Can you find them?

## Extra Challenge

Find the route with the highest total.

Find the route with the lowest total.

# Skip Counting by 2s

Using a marker, crayon, or do-a-dot bingo marker, find your way from 2 to 50 counting by 2s in numerical order to complete the maze!
