A Message from Vegenaut

‘Vegepedia’ is my gift to the community and also an artistic experiment. My hope is that this book and its art will act as a creative seed that that will germinate future works of art by many other people. It is the sixth installment in the Vegebook series of coloring books but the first to be released free with an “open-source” model.

If you got this book from Amazon, you may be thinking “It was cheap, but it wasn’t free!”. You’re right, of course, but the price you paid on Amazon for ‘Vegepedia’ is the absolute minimum price allowed by the publisher, and only reflects the costs necessary to cover printing (in other words, this book generates no profit for me).

‘Vegepedia’ is released under a Creative Commons Attribution 4.0 International (CC BY 4.0) License. This license allows you to share (copy and redistribute Vegepedia in any medium or format) and/or adapt (remix, transform, and build upon Vegepedia artwork for any purpose, even commercial) as long as you give appropriate credit , provide a link to the relevant Creative Commons license, and indicate if changes were made. The full text of the Creative Commons Attribution 4.0 International License Agreement is viewable here: <https://creativecommons.org/licenses/by/4.0/legalcode> . The “source code” for ‘Vegepedia’ is available from my website:

The downloadable “source code” package includes a high-quality, ready-to-print PDF copy of the entirety of ‘Vegepedia’, individual PDF copies of every page, the vector (.svg) files for every illustration in the book, 300 dpi raster renders of every illustration (.png), and a true type (.ttf) version of ‘Vegefont’, the esoteric script used by denizens of ‘Vegeworld’ (‘Vegescript’ translation on following page).

Welcome to Vegeworld! I can’t wait to see what you create.
